

Physician Instructions: Begin Using the MCJ System

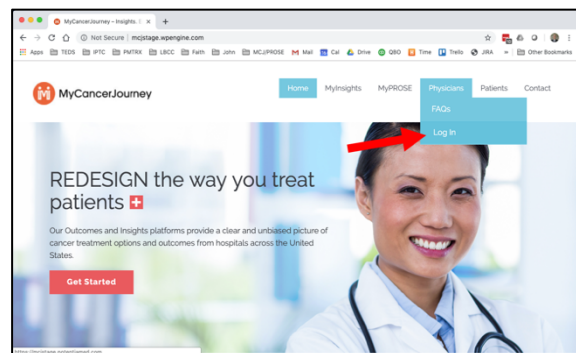

Welcome to MyCancerJourney!

MyCancerJourney provides answers to some of the most important questions those newly diagnosed with cancer ask. Our powerful analytic tools provide a clear and unbiased picture of cancer treatment options and outcomes. The result is personalized medical information for those newly diagnosed with cancer. Considering and discussing this information with their healthcare providers supports more informed treatment decisions and empowers them to balance them with each aspect of their lives.

Step 1: Access the MCJ System

MyCancerJourney is a secure, responsive, flexible web-based software application. As a physician, your security credentials have already been established, which you should have received via email. (Make sure you check your spam folder.) To get started, use any web browser to visit:

www.mycancerjourney.com

And click “Log In” under the Physicians menu.

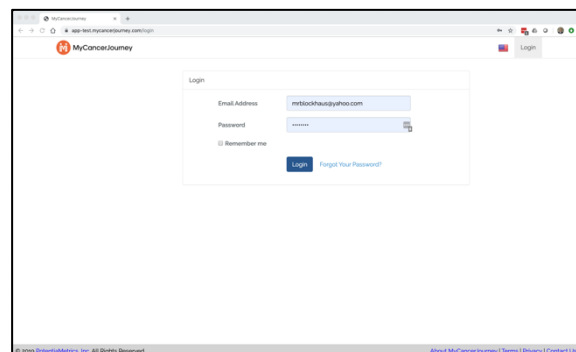

Step 2: Login to the Application

You will be presented with a typical login screen. Use the credentials you received from the MyCancerJourney Administrator to log in to your account:

Email Address: **lmartin@pmtrxmedical.com**

Password: **pmtrx1234**

Note: You will be asked to change your password and accept MCJ’s terms of use the first time you log in to the system.

Congratulations

You are ready to begin using MyCancerJourney! Just save a link to www.mycancerjourney.com with your favorite websites. Then, MCJ will always be at your fingertips to help your patients work through treatment options and other considerations related to cancer diagnoses.
